

Stand Out.

Haas Door Commercial Aluminum garage doors offer a modern, contemporary, clean line look, yet provides many options to ensure the project meets the requirements needed and perfectly enhances the overall aesthetic of the building. The series has three options to choose from to get precisely the look desired. From narrow anodized rails to heavy-duty woodgrain finished rails with obscure glass, Haas Door has what you need to set your project apart from the rest.

With three aluminum models, multiple finishes, and many glass and glazing options, Haas Door opens the door for endless possibilities.

- 4 Anodized Color Options
- 10 Painted Finish Options
- 14 Woodgrain Color Options
- Custom-matched Color and Powder Coating also available

THE LOOK

CA-110 Narrow Line Frame

The CA-110 is a narrow line, lighter weight door due to the smaller rail profile that gives the clean line look of mostly glass.

CA-315 Larger Glass Area with Heavy-Duty Outer Frame

The CA-315 model has a heavy-duty frame, but with a smaller center stile to offer more glass, but with expanded color choices and larger sizes.

CA-320 Heavy-Duty Frame

The CA-320 is the heavy-duty model that provides the most flexibility. The CA-320 provides the largest door size maximums, the most color/woodgrain finishes, and the most options such as pass doors.

OPTIONS

2" or 3" track
Exhaust Port(s)
Cam Safety Device
Spring Bumpers
High Cycle Springs
